DETAILED ACTION

Allowable Subject Matter

- 1. Claims 1-17 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, and as accurately argued by the applicant, elements 4 and 10 of Lauzier (US#3955799) are not "half parts" as defined by the applicant on page 3, lines 14-16 of the specification of the instant application. Further, elements 5 and 8 of Lauzier do not define longitudinally spaced ribs which extend in the same direction. It would not have been obvious to one of ordinary skill in the art to modify Lauzier such that at least one of the rails had separate half parts and wherein at least one of the parts had longitudinally spaced ribs which extend in the same direction. Claims 12 and 17 includes the allowable subject matter discussed above and are therefore allowable for at least the same reason(s).
- 3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
